The Essence of Rotary

Is the enjoyment we get from working and socialising with people who are interested in others not just themselves, helping to serve under the banner of Rotary, an international organisation.

Professional people with integrity and high ethical standards in business who have the time and willingness to get involved and are prepared to give back as much as they receive from life with a common bond of humanitarian endeavour.

The concept of expanding our social and business circle to provide more opportunities to serve society.

Rotary is fun, it is rewarding and it is extremely satisfying. Every individual can make a difference,

Ellon Rotary is for communities, helping each other develop friendships whilst we serve society, Locally, Nationally and Globally.
